

TiltAction® Single Angle Tilt Indicators

Detect Shipping Tilt Damage

Product Overview

TiltAction Tilt Indicator is a single-use tip indicator used to monitor goods that must remain upright. It can show tilt, inversion and improper handling of goods in shipment and storage while monitor whether they are stored correctly.

When these indicators are used, the product cannot be tipped without indisputable evidence of mishandling. The tilt indicator will turn red if the package is tilted past 80°.

Benefits

- Reduces mishandling during transportation or storage
- Provides indisputable evidence of mishandling
- Alerts recipient to inspect contents before acceptance
- Promotes chain of accountability for all product handling
- Confirms effectiveness of packaging
- Helps identify trouble spots in supply chain, from production to transportation and storage

Specifications

Activation Angle	Deviation from the vertical direction 80°
Size	60 x 74 x 5 mm
Monitoring Range	Single plane
Tolerance	± 5°
Operating Humidity	5% to 99%RH, non condensing
Operating Temperature	-40°C to 60°C (-40°F to 140°F)
Composition	Polystyrene housing with non-magnetic steel indicator
Arming	Remove adhesive backing
Mounting	Pressure-sensitive adhesive or holes to accommodate screws, nails, or staples
Shelf Life	2 years
